

Office of Curriculum, Career & Technical Education (OCCTE)

800 Governors Drive
Pierre, SD 57501
(605) 773-3423

The **Curriculum Development Model** demonstrates OCCTE involvement in the progression of standards development. The model outlines the necessary *groundwork* at each phase of the model and the *dissemination of deliverables*. Deliverables include professional development and publications relating to curriculum and instruction. Content standards are the starting place for practices within the Curriculum Development Model and are the core curriculum that drives *classroom instruction*. Through *data analysis* of standards-based assessments, gaps in classroom instruction can be determined. The Curriculum Development Model is aligned with the mission and goals of the OCCTE. Dissemination

Content Standards

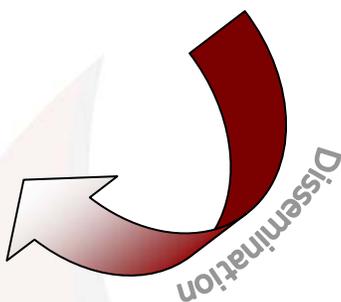

Groundwork:

- Revision of Content Standards
- Adoption of Content Standards (including Common Core)

Deliverables:

- New Standards
- Professional development of standards

Classroom Instruction

Groundwork:

- Current research on instructional strategies
- Teacher distribution lists
- Site visits
- Collaboration with other state agencies, interest groups, and organizations

Deliverables:

- Research-based information on instructional strategies.
- Integration of CTE and core-content.
- Career cluster specific trainings
- New teacher guidance
- Standards-based curriculum—Understanding by Design (UbD)

Actionable Assessment

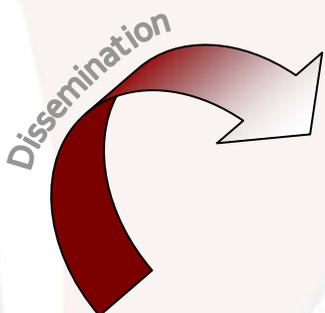

Groundwork: In partnership with OATS

- Content and bias reviews, item writing, and post-alignment
- Develop authentic and/or End-of-Course exams

Deliverables: In partnership with OATS

- Information on standards-based formative and summative assessment

Data Analysis

Groundwork:

- Annual meeting with OATS to discuss results of data from state-wide assessments
- Determine standard-level focus areas for state-wide professional development
- Perkins Accountability Data

Deliverables:

- State-wide professional development on standard-level focus areas
- Dissemination of quality UbDs
- Integration of content standards and career guidance
