21st Century Community Learning Centers Program Overview

[Instructions](#)

Program: 21st Century Community Learning Centers

Due Date: March 2, 2016

Purpose: As authorized under Title IV, Part B of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act of 2001, the specific purposes of the 21st Century Community Learning Centers (21st CCLC) program are to provide opportunities for communities to establish or expand activities in community learning centers that:

- Provide opportunities for academic enrichment, including providing tutorial services to help students, particularly students who attend low-performing schools, to meet State and local student academic achievement standards in core academic subjects, such as reading and mathematics;
- Offer students a broad array of additional services, such as youth development activities, drug and violence prevention, counseling, art, music, recreation, technology education, and character education programs, that are designed to reinforce and complement the regular academic program of participating students; and
- Offer the families of students, served by community learning centers, opportunities for literacy and related educational development.

Eligibility and Funding Requirements: Eligible applicants are those who primarily serve students and the families of the students of high poverty schools. 21st Century Community Learning Centers programs must be located in public school facilities or in facilities that are at least as available and accessible to the students to be served as if the program were located in a public elementary, middle, or secondary school. Applicants must demonstrate that they meet the statutory program requirements of serving students from schools eligible for school-wide Title I programs or schools with 40% or greater poverty based upon free and reduced lunch as determined using verified information.

Eligible applicants may be local education agencies, community-based organizations, including faith-based organizations, institutions of higher education, city or county government agencies, for-profit corporations and other public or private entities. A community-based organization is defined as a public or private for-profit or nonprofit organization that is representative of the community and has demonstrated experience or promise of success in providing education and related activities that will complement and enhance the academic performance, achievement and positive youth development of students. While all organizations are eligible to apply, they MUST be partnered with an eligible school to be considered for funding.

Grant cycle is 5 years. Grant awards range from \$50,000-\$150,000 per year for each of the 5 years.

Reservations: The State of South Dakota Department of Education reserves the right to cancel this solicitation if it is considered to be in its best interest. The State reserves the right to negotiate modifications to the application. The State reserves the right to reject any and all applications received as a result of this request for applications. The State reserves the right to consider equality in the geographic areas. The State reserves the right to consider the applicant's previous experience with the 21st CCLC program. The State has the right to consider the number of children served as well as grade levels targeted. The State reserves the right to assure that the grant recipients are competent, responsible and committed to achieving the objectives of the awards they receive. The State reserves the right to visit sites prior to awarding the grant to verify the content of the application. There will be few allowances to change the scope of grants once the grants are awarded, so be sure that the program proposed is one that can be carried out for the amount requested.
